

# Amara Nishat

MERN Stack Developer

Email: [amaranishat4@gmail.com](mailto:amaranishat4@gmail.com)

Location: Lahore, Pakistan | Phone: +92 326 5896769

## SUMMARY

Software Engineering undergraduate with a strong academic background and hands-on experience in web development. Skilled in full-stack technologies through internships and a final-year academic project. Highly motivated to begin a professional career where I can apply my technical skills, contribute to real-world software solutions, and continue growing in software development, system design, and problem-solving.

## Technical Proficiencies

- **Programming Languages:** HTML, CSS, JavaScript,
- **Frameworks & Libraries:** React.js, Next.js, Express.js, React-Bootstrap, Material-UI
- **Databases:** MongoDB, SQL
- **Web Technologies:** Web Sockets, RESTful APIs
- **Tools:** GitHub

## Professional Experience

### Department of KICS, U.E.T, Lahore — Internee

May 2024 – July 2024

Cloned an e-commerce website similar to [Daraz](#) using the Full Stack Web Development, contributing to both frontend and backend functionality.

#### Key Accomplishments:

- Developed and implemented a responsive frontend using HTML, CSS, and JavaScript, enhancing user experience and website accessibility across devices.
- Built backend functionalities with PHP and MySQL, including user login, product management, and checkout process, ensuring seamless ecommerce transactions

### Dev Learn Dynamics, Lahore — Internee

July 2024 – September 2024

Contributed to the development messaging application similar to WhatsApp using the MERN stack, implementing key frontend and backend features.

#### Key Accomplishments:

- Developed and integrated full-stack features using MongoDB, Express, React, and Node.js, ensuring efficient data flow between the frontend and backend.
- Improved application performance and user experience by optimizing MongoDB queries, enhancing React frontend components, and resolving backend issues in Node.js and Express.

Hex software, Online — Internee1 September - 1 October

Worked on various frontend tasks using HTML, CSS, and JavaScript

Magma3C, Lahore — InterneeOctober 2024 - December 2024

Worked on Learning manegmnet System using the MERN stack, contributing to both frontend and backend functionality.

Key Accomplishments:

- Developed and integrated full-stack features using MongoDB, Express, Next. Js, and Node.js, ensuring efficient data flow between the frontend and backend.
- Improved application performance and user experience by optimizing MongoDB queries, enhancing frontend components built with Next.js.
